Fire Safety Journal **17** (1991) 559–562

CONTENTS OF VOLUME 17

Number 1

Rates of Heat Release and Related Fire Parameters for Silicones 1
R. R. BUCH (USA)

Effective Measurement Techniques for Heat, Smoke, and Toxic Fire Gases . . . 13
VYTENIS BABRAUSKAS (USA)

Smoke Production in the Cone Calorimeter and the Room Fire Test 27
B. A.-L. ÖSTMAN & L. D. TSANTARIDIS (Sweden)

Thermal Analysis of Plasticised PVC Containing Flame Retardant/Smoke Suppressant Inorganic and Organometallic Iron Compounds 45
P. CARTY, E. METCALFE & T. J. SABEN (UK)

Flammability and Storage Studies of Selected Fire-resistant Fluids 57
RALPH LITTLE, SEETAR PANDE, JAMES ROMANS & JAN SHIRLEY MATUSZKO (USA)

Announcement 77

Calendar 78

Number 2

Editorial 81

Welcoming Address 83

Major Fire Disasters Involving Flashover 85
D. J. RASBASH (UK)

Fire Safety in Europe 1992 95
L. TWILT (The Netherlands)

Fire Safety Concept 103
WOLFRAM BECKER & HELMUT HERTEL (FRG)

Natural Fires: Research and Application in Consulting 113
KARL KORDINA (FRG)

The Role of a Fire Safety Engineer 129
H. L. MALHOTRA (UK)

Fire Behaviour of Ducts 135
JOËL KRUPPA (France)

Fire Grading and Fire Behaviour 147
MARGARET LAW (UK)

Fire Safety Journal (**17**) (1991)—© 1991 Elsevier Science Publishers Ltd.
Printed in Northern Ireland

Recent Studies at the Center for Fire Science and Technology in Tokyo 155
KUNIO KAWAGOE (Japan)

Integration of Fire Science into Building Requirements 159
ROBERT W. FITZGERALD (USA)

Temperature Development in Externally Fire Exposed Rooms 165
KAI ÖDEEN (Sweden)

Estimating Air Leakage Through Doors for Smoke Control 171
DANIEL GROSS (USA)

Internationalisation of Fire Research 179
P. H. THOMAS (UK)

Calendar 185

Number 3

Latest Developments in Wool Aircraft Textile Furnishings 187
L. BENISEK, P. C. MYERS, M. J. PALIN & R. WOOLLIN (UK)

The Mortality of Burns 205
J. C. LAWRENCE (UK)

Rate of Heat Release of Wood Products 217
MARC JANSSENS (USA)

The Measurement of Smoke in Rate of Heat Release Equipment in a Manner Related to Fire Hazard 239
MARCELO M. HIRSCHLER (USA)

Book Review 259

Calendar 261

Number 4

Numerical Simulation on Cooling of the Fire-induced Air Flow by Sprinkler Water Sprays 263
W. K. CHOW & N. K. FONG (Hong Kong)

Measuring Degrees of Combustibility Using an OSU Apparatus and Oxygen-Depletion Principle 291
YOSHIO TSUCHIYA & J. F. MATHIEU (Canada)

Small-scale Compartment Fire Experiments with PMMA Cribs 301
D. YUNG (Canada)

Modelling of Concrete Walls in Fire 315
A. J. O'MEAGHER & I. D. BENNETTS (Australia)

Calendar 337

Number 5

Fire Risk in Buildings: Frequency of Exposure and Physical Model 339
M. D. BRANDYBERRY & G. E. APOSTOLAKIS (USA)

Fire Risk in Buildings: Scenario Definition and Ignition Frequency Calculations . 363
M. D. BRANDYBERRY & G. E. APOSTOLAKIS (USA)

Analysis of Large-scale Fire Test Data 387
RICHARD D. PEACOCK & VYTENIS BABRAUSKAS (USA)

Letters to the Editor

Comment on The Accuracy of Computer Fire Models: Some Comparisons with Experimental Data from Australia 415
P. J. JOHNSON (Australia)

Revision of BS 5588: Part 4: Smoke Control in Protected Escape Routes Using Pressurization 417
A. HAY (UK)

Calendar 419

Number 6

Editorial 421

Electrostatic Fire Detector 423
A. SCHMIDT-OTT, W.KRÜLL (FRG) & H. BURTSCHER (Switzerland)

The Use of Low Power Carbon Monoxide Sensors to Provide Early Warning of Fire 431
J.A. HARWOOD, P. T. MOSELEY, R. PEAT & C. A. REYNOLDS (UK)

Background Signals from Fire Detectors: Measurement, Analysis, Application . 445
J. N. SMITHIES, P. E. BURRY & M. J. SPEARPOINT (UK)

Acquisition and Analysis of Fire Sensor Signals in Selected Environments . . . 461
P. RYSER & D.WIESER (Switzerland)

An Algorithm for Improving the Reliability of Detection with Processing of Multiple Sensors' Signal 469
HIROMITSU ISHII, TAKASHI ONO, YUKIO YAMAUCHI & SHIGERU OHTARI (Japan)

A Data Acquisition and Recording System for Fire Parameters 485
OTFRIED POST (FRG)

Analysis, Synthesis and Simulation of Fire Signals as a Tool for the Test of Automatic Fire Detection Systems 499
JÖRG KLOSE (FRG)

A Composite Detection Algorithm Using Signal Trend Information of Two Different Sensors 519
RAINER SIEBEL (FRG)

A Primitive Study of a Fire Detection Method Controlled by Artificial Neural Net 535
YOSHIAKI OKAYAMA (Japan)

Calendar 555
